BSmart

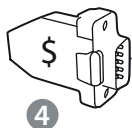

Right from the very beginning, when we invented our first granita machine, we have made innovation one of our top priorities.

BSmart is the first multi-functional, electronic, refillable machine with portion control and cashless top-up functions. Easy to use and clean, BSmart is extremely flexible and also takes up very little space.

Perfect for Italian-style granita, iced coffee and tea, soft drinks, sorbets, ice-cold cocktails and much, much more...
